Ms. Lois A. Powell
Environmental Protection Assistant
RCRA Programs Branch
U.S. Environmental Protection Agency
841 Chesynut Building
Philadelphia, Pa. 19107

Dear Ms. Powell:

Please be advised that the "Notification of Hazardous Waste Activity" referred to in your letter of June 16, 1992 (copy attached) has been withdrawn. This form was submitted to you at the request of Mr. Richard Illig of the Pennsylvania Department of Environmental Resources as a means of verifying that Hazardous Waste activities no longer occur at this site. Greene, Tweed does not own or operate this facility, and does not conduct any hazardous waste activities at this site.

Very truly yours,

Thomas A. Klopp Jr.

**ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)**

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

PLEASE PLACE LABEL IN THIS SPACE

Re: North Wales Plant (PAD 075504795) of GREENE, TWEED & CO.
File No. 3HW33

Dear Mr. Wassersug:

During my phone conversation on May 30, 1986 with your Mr. Samuel Israel, I stated that with the information available, it is difficult to determine whether GREENE, TWEED & CO., North Wales, PA ever operated as a TSD facility under interim status. Mr. Israel instructed me to use the worse case scenario so that GREENE, TWEED & CO. can be on the safe side in compliance with the 1984 hazardous and solid waste amendments.

GREENE, TWEED & CO. was granted interim status on July 23, 1981. (see enclosed letter) On August 1, 1983 the PA Department of Environmental Resources determined that GREENE, TWEED & CO. was not a TSD facility. (see enclosed letter) Also enclosed is a letter dated December 15, 1983 from the U.S. Environmental Protection Agency and GREENE, TWEED & CO's response dated December 21, 1986 to terminate interim status. To summarize, GREENE, TWEED & CO. was in interim status from November 19, 1980 thru August 1, 1983. The period of time that GREENE, TWEED & CO. may have stored material under interim status but can not definitely be determined from documentation is from March 8, 1981 thru May 27, 1982. The maximum amount of material in question is seventeen fifty-five gallon drums of rubber scrap (F005) which is a flammable solid consisting of 60% natural rubber and 40% mixture of Toluene, Heptane and MEK. GREENE, TWEED & CO. never transported or disposed of any materials under interim status.

Information requested in your April 17, 1986 letter:

- (1). Enclosed are the maps that were submitted to the U.S. Environmental Protection Agency with part "A" of the GREENE, TWEED & CO's hazardous waste permit application.

Mr. Stephen R. Wassersug
Director-Hazardous Waste Management Division
U.S. Environmental Protection Agency

Page 2

- (2) The Solid Waste Management Unit at GREENE, TWEED & CO. is a concrete pad 12 ft. x 35 ft. with a 6 inch high curb around the perimeter. Enclosed is a letter dated July 15, 1983 and close-out inspection reports of June 17, 1983. This SWMU was used to store hazardous waste in fifty-five gallon drums. The hazardous waste stored on this pad was generated on site.
- (3) The hazardous waste stored on this SWMU and the yearly quantities received of each waste during interim status is listed below.

<u>Proper D.O.T. Shipping Name</u>	<u>EPA Hazard No.</u>	<u>UN/NA Number</u>	<u>Yearly Qty. Received</u>
Rubber Scrap	F005	NA 1345	15000 lbs.
Alcohol N.O.S.	D001	UN 1987	5300 lbs.
Toluene Waste	F005	UN 1294	2400 lbs.

- (4) There were no releases of any type at GREENE, TWEED & CO., North Wales facility.

GREENE, TWEED & CO. does not require a RCRA permit for treatment/storage/disposal facilities.

If there are any additional requirements of GREENE, TWEED & CO., please contact me immediately.

Very truly yours,

GREENE, TWEED & CO.

Re: Deletion of All Hazardous Waste Storage
Activities at Two Plant Locations of
Greene, Tweed & Co:
Kulpsville Plant (PAD 980555197 and ✓
North Wales Plant (PAD 075504795

Dear Mr. Wassersug:

Greene, Tweed & Co. has deleted the storage facility activities at our plants located in Kulpsville and North Wales and requests to be withdrawn from the RCRA permit system. Greene, Tweed & Co. will not be filing a part B for a RCRA permit for the Kulpsville or North Wales plants.

In October 1982, Greene, Tweed & Co. discontinued the storage of hazardous waste for periods greater than 90 days. Today, Greene, Tweed & Co. only has generator activities and requests to remain in the system only as a generator.

If there are any additional requirements of Greene, Tweed & Co. to withdraw from the RCRA system, please contact me immediately.

Very truly yours,

GREENE, TWEED & CO.

Re: Facility Name: Greene Tweed & Co., Inc.
I. D. # PAD 07 550 4795

Dear Mr. Pilecki:

The Pennsylvania Department of Environmental Resources has informed us that your facility requested withdrawal from the Hazardous Waste program as a treatment, storage, or disposal facility.

It is a policy that EPA will go through specific procedures to terminate interim status for facilities who wish to withdraw their Part A of the application for a RCRA permit. The first step in the procedure is to call-in Part B of the application for a permit. Therefore, this letter constitutes a formal request for Part B of your application for a hazardous waste management facility permit under the Resource Conservation and Recovery Act (RCRA) for the facility referenced above. This request is made under the authority of regulation 40 CFR §270.

If it is your decision, as you indicated to the Pennsylvania Department of Environmental Resources, to withdraw from the system, then please send EPA a letter stating that you are not going to submit a Part B for a RCRA permit within 30 days upon receipt of this letter. We will then continue with the procedures for termination of interim status. However, if you should decide to pursue a RCRA permit and will submit a Part B, it will be due to EPA no later than June 15, 1984.

If you have any questions, please do not hesitate to call Ms. Shirley Bulkin, a member of my staff, at (215) 597-4269.

Sincerely,

for Robert H. Allen

Solid Waste Facility Supervisor
Penna. Dept. of Environmental Resources
1875 New Hope Street
Norristown, PA. 19401

Re: Hazardous Waste Facilities
Activity Deletion

Dear Mr. Lusk:

Greene, Tweed & Co. requests to close out both the Kulpsville plant (PAD 980555197) and the North Wales plant (PAD 075504795) as a storage facility for hazardous waste. Since October, 1982, Greene, Tweed & Co. did not store any hazardous waste longer than 90 days at either facility.

On June 17, 1983, Mr. Thomas Sheehan, a solid waste specialist from the Dept. of Environmental Resources, performed unannounced inspections of both plants as a generator and storage facility for hazardous waste. Prior to this inspection, I informed Mr. Sheehan of Greene, Tweed & Co.'s intent to request a close out of our storage facility status. Mr. Sheehan then inspected the storage facility portion of both our plants as a close out inspection. The reports of Mr. Sheehan's findings are attached.

Also enclosed are copies of form ER-SWM-53 which Greene, Tweed & Co. have submitted to the Penna. Dept. of Environmental Resources in Harrisburg, PA.

If Greene, Tweed & Co. is responsible for any further action to delete the storage activity status at either plant location, please contact me immediately.

Very truly yours,

GREENE, TWEED & CO.

Re: Identification No. PAD075504795

Dear Mr. Morse:

It has been determined by our staff that you are not a TSD facility or that you qualify under the permit by rule provision in our hazardous waste management rules and regulations.

Therefore, you will not have to submit a Part B hazardous waste permit application and we are returning your Part A application if you previously submitted one to the Department.

This means you no longer have interim status as a TSD facility and you may not engage in this type of activity at your facility. You will not be required to secure a hazardous waste management permit for your facility, but you are still subject to any portion of the hazardous waste management rules and regulations published in the Pennsylvania Bulletin September 4, 1982 which pertain to your facility. This includes the submission of a closure plan if you operated as a treatment storage or disposal facility after November 19, 1980.

If you qualify under the permit by rule provision of the regulations then you may continue to operate as a hazardous waste facility in accordance with NPDES or local sewer authority requirements.

This does not release you from Environmental Protection Agency requirements. You will have to contact their Philadelphia Regional Office to verify that you do not have to submit a Part B application to their agency.

If you have any questions concerning this, I can be reached at 631-2420.

Very truly yours,

RE: Deletion of Hazardous Waste Storage Activities
At Two Plants of Greene, Tweed & Co.:
Kulpsville Plant (PAD 980555197) and
North Wales Plant (PAD 075505795)

Dear Sirs:

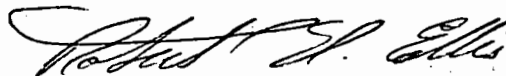

Greene, Tweed & Co. has deleted the storage facility activities at our plants located in Kulpsville and North Wales and requests that this activity closure be identified and approved. In October 1982, Greene, Tweed & Co. discontinued all storage of hazardous waste for more than 90 days. (75.262 (2) (1) (i)) Today, Greene, Tweed & Co. only has generator activities.

Enclosed are two forms, ER-SWM-53, that were supplied to me by the Norristown office of the Penna. Dept. of Environmental Resources. Also enclosed is a letter recently sent to the Norristown office explaining the inspections already performed for the close out of our storage activities..

If there are any additional requirements of Greene, Tweed & Co. to close out these storage activities, please contact me immediately.

Very truly yours,

GREENE, TWEED & CO.

CONDITIONS OF OPERATION DURING
INTERIM STATUS
AMENDED

Date Prepared: August 28, 1987

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

1. Facility name, location, and EPA Identification Number.

Name: Greene, Tweed and Co. Inc. - North Wales

Location: North Wales Borough
North Wales, PA 19454

EPA I.D. No.: PAD 07 550 4795

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: A. B. Pilecki, Vice President Manufacturing

Operator's Name:

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S01</u>	<u>1350 Gals.</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

<u>F005</u>	<u>D001</u>	<u>F001</u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Attention: Mr. Bill Walsh

Dear Bill:

Since receiving notice of interim status and speaking with you on the phone, I have become aware of changes needed in our part 'A' Application. This is in addition to the changes made in my letter dated May 12, 1981 to Mr. William Budd of your agency. The new changes affect both our North Wales and Kulpsville facilities as we are deleting from one and adding to the other. We are also adding an additional waste listing.

The changes are as follows:

North Wales; ID #PAD075504795, page 3 of 5, Section IV, Description of Hazardous Wastes. Line #2 is to be completely deleted. That information will be added to our Kulpsville operation ID#PAT000621474. Also, on our North Wales application, page 1 of 5, IIIC: we are adding the line S01;100;G. On page 3 of 5 we are entering F001;900;P;S01. If any further clarification is required, please do not hesitate to call upon me.

Very truly yours,

GREENE, TWEED & CO.

JUL 23 1981

Mr. A. B. Pilecki
Greene, Tweed and Co. Inc. - North Wales
320 Elm Avenue
North Wales, PA 19454

Dear Mr. Pilecki:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

Shirley D. Bulkin

Attention: Mr. William Budd

Dear Mr. Budd:

In accordance with our telephone conversation of Thursday, May 7, 1981, this letter shall serve as a correction to Greene, Tweed's applications for interim status as a hazardous waste generator.

For our North Wales facility, EPA ID #PAD075504795, on page 3 of 5, we are deleting the D80 process code for our waste designated F005. This, I understand, is the only revision required.

For our Kulpville operation, EPA ID #PAT000621474, on page 3 of 5, we are deleting the D80 process code for our wastes designated F002, F001, D001 and F011. In section III C, line 5 of process design capacity, we are changing the 2800 figure to read 210 gallons while leaving the asterisk to refer to section IV, line 5.

In addition, we are making the following revision: North Wales facility Section III C, line 2: S01,2000*, G, will be deleted and entered as a hazardous waste to henceforth be generated at our Kulpville Plant. Code, amount and unit of measure will remain the same.

In hope that the above will successfully complete our application, I remain

Very truly yours,

GREENE, TWEED & CO.

Norman Morse
Plant Engineer

Re: Acknowledgment of Application for
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980.

While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete items I, III, V, and VI (except VI-B which must be completed regardless). Complete all items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.

POLLUTANT CHARACTERISTICS

INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

(specify)

MAP

Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers and other surface water bodies in the map area. See instructions for precise requirements.

NATURE OF BUSINESS (provide a brief description)

MANUFACTURING OF GASKET MATERIALS, PACKINGS AND SEALING DEVICES.

III. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

YEARLY ESTIMATED GALLONS GENERATED

DESCRIPTION OF HAZARDOUS WASTES

A HAZARDOUS WASTE NUMBER — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

ESTIMATED ANNUAL QUANTITY — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

UNIT OF MEASURE — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	T	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

ROCESSES

PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

ITEM 4: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.

2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.

3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

FACILITY DRAWING

Existing facilities must include in the space provided on page 5 a scale drawing of the facility (see instructions for more detail).

PHOTOGRAPHS

Existing facilities must include photographs (aerial or ground-level) that clearly delineate all existing structures; existing storage, treatment and disposal areas; and sites of future storage, treatment or disposal areas (see instructions for more detail).

FACILITY GEOGRAPHIC LOCATION

LATITUDE (degrees, minutes, & seconds)

40 12 030

LONGITUDE (degrees, minutes, & seconds)

075 17 030

FACILITY OWNER

A. If the facility owner is also the facility operator as listed in Section VIII on Form 1, "General Information", place an "X" in the box to the left and skip to Section IX below.

B. If the facility owner is not the facility operator as listed in Section VIII on Form 1, complete the following items:

1. NAME OF FACILITY'S LEGAL OWNER

2. PHONE NO. (area code & no.)

3. STREET OR P.O. BOX

4. CITY OR TOWN

5. ST.

6. ZIP CODE

OWNER CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
